SUMMARY

Frontend/Mobile Engineer (React, Next.js, React Native) with 3+ years building and shipping production-grade web and mobile applications for fintech and mobility platforms. Contributed to a full Cordova-to-React Native Expo migration for a banking app serving 500K+ users and rebuilt ride-booking and social platforms end-to-end.

SKILLS

Languages: JavaScript, TypeScript

Frontend: React, Next.js, React Native, Expo, React Query, Zustand, Tailwind CSS

Tools / AI: Firebase, Supabase, Azure Cosmos DB, SQLite, Azure OpenAI, Gemini API, react-native-executorch, Whisper

Testing / CI/CD: Jest, React Testing Library, GitHub Actions

Soft Skills: Problem Solving, Team Collaboration, Communication, Agile Development, Technical Documentation

EXPERIENCE

Software Engineering Intern | [Guaranty Trust Holding Company](#) | Lagos, Nigeria

Jun 2025 - Sep 2025

- Migrated GAPS-Lite mobile banking app from Cordova to React Native Expo, cutting cold-start load time by ~20% and bundle size by ~300 KB while resolving critical legacy security vulnerabilities.
- Shipped pixel-accurate UI features for GT e-Token (500K+ downloads) using React Query and Zustand; applied stale-while-revalidate caching to cut median data-ready time from ~1.5s to ~0.5s.
- Hardened authentication flows by implementing token refresh logic and secure storage patterns, ensuring compliance with GTCO's internal security release checklist.

Frontend/Mobile Engineer | [To-Go Mobility](#) | Lagos, Nigeria

May 2024 - Jan 2025

- Rebuilt the ride-booking platform in React and Next.js with SSR/CSR rendering strategy, reducing time-to-interactive by ~1.2s and improving sign-up conversion by ~25%.
- Redesigned the multi-step booking flow with improved validation and pricing transparency, increasing completed bookings by ~20% and reducing checkout drop-off.
- Implemented React Query caching with optimistic UI patterns, cutting repeat-request wait time by ~30% and enabling offline access to recent booking data.

Mobile Engineer (Contract) | [SpicodeX](#) | Abuja, Nigeria

Oct 2024 - Dec 2024

- Engineered core social app features in React Native activity feed, real-time WebSocket messaging, push notifications, and media upload shipped to beta users within a 3-month contract.
- Refactored 12+ legacy components using memoization and lazy loading, reducing initial load time by ~15% on mid-range Android devices.
- Optimized data fetching with React Query prefetching and background refetching, cutting perceived API wait time by ~40% on feed and media-heavy screens.

PROJECTS

Private AI Note Taker - *React Native Expo · react-native-executorch · Whisper · LLaMA 3.2* | Android [Play Store](#) | [Live Demo](#)

- Built an offline-first Android note-taking app with 100% on-device inference integrating Whisper for speech transcription and LLaMA 3.2 via react-native-executorch for LLM summarization achieving zero cloud data transmission and publishing to the Play Store with 100+ downloads during alpha testing.

Find Care - *React · Next.js · TypeScript · Azure OpenAI · CosmosDB* | Microsoft ADC Student League - Project [Live Demo](#)

- Led frontend development of Find Care, a patient-to-practitioner matching platform built during the Microsoft ADC Student League program, using React, Next.js, and TypeScript.
- Owned the end-to-end frontend: authentication flow, search/filter UI, and booking interface integrated with a NestJS and ASP.NET backend and powered by Azure OpenAI for intelligent provider recommendations and Azure Cosmos DB for scalable data storage.

CERTIFICATIONS

- HNG Frontend Finalist - top 5% of ~3,000 applicants <https://certgo.app/c-e3b1ea68>
- Tublian Open-Source Internship - <https://verify.skilljar.com/c/ptffqnh5shbq>
- LinkedIn Software Engineering Foundation - <https://shorturl.at/ump28>

VOLUNTEER EXPERIENCE

Bootcamp Lead | [Google Developer Student Clubs / Google Developer Groups](#) | Remote

Oct 2024 - Dec 2025

- Mentored 50+ students across 2 developer bootcamps as Bootcamp Lead for Google Developer Groups, delivering structured curriculum and weekly project reviews; co-hosted VS Code Day Minna for 80+ developers.

EDUCATION

Bachelor of Technology, Computer Science | [Federal University of Technology, Minna](#) | Nigeria
(Expected)

Jan 2020 – Apr 2026

GPA: 4.43 / 5.0 (equivalent to ~3.54 / 4.0) | Relevant Coursework: Data Structures, Software Engineering, Artificial Intelligence, Database Systems
